

# GIS-Point

MAPPING YOUR VISION WITH  
**DEPTH, SCALE, AND PRECISION**

**8+**  
YEARS

Commercial Experience In GIS  
Software Development.

**390+**  
PROJECTS

For The European, Middle East  
And American Markets.

**Gis-Point** — is a geospatial technology company specializing in innovative GIS-based solutions

Our core focus is delivering precision agriculture services that **optimize** farming practices, **increase** crop yields, and **reduce** environmental impact

## WHAT WE OFFER

- **Precision Farming Analytics**  
Optimize irrigation, fertilization, and planting strategies with high-resolution data and AI-driven insights
- **Crop Health Monitoring (NDVI & Satellite Imagery)**  
Real-time monitoring using satellite and drone-based data
- **Field Mapping & Soil Zoning**  
Detailed geospatial mapping for effective field segmentation and soil health management
- **Farm Management Systems (FMS)**  
Integrated GIS-based dashboards for data-driven decisions across the entire farming cycle
- **Custom GIS Applications for Agribusinesses**  
From cooperatives to large-scale farms, we develop custom tools that streamline agronomic operations

## OUR VISION

To empower the agricultural sector with intelligent geospatial solutions that ensure **food security**, **environmental stewardship**, and **sustainable growth**

Company Name: **Gis-Point**

Website: [www.gis-point.com](http://www.gis-point.com)

Email: [info@gis-point.com](mailto:info@gis-point.com)

Location: **UK, Devonshire Street, 41, Ground Floor, London W1G 7AJ**

## TECHNOLOGIES

**Mapping & GIS:** ArcGIS SDK, QGIS, Leaflet, Mapbox, Custom Web GIS

**Imagery & Sensors:** Sentinel, UAV Data, RTK-GPS, IoT Integration

**Frontend & UX:** React, Flutter, WebGL Interfaces For Agri Workflows

**Backend & Cloud:** Python, Node.js, API-First, AWS/GCP

**AI & Analytics:** NDVI Pipelines, Crop Prediction Models, Zoning Automation

## WHO WE HELP

**Large-Scale Farms And Agricultural Holdings**

**AgTech Startups & Cooperatives**

**R&D Centers Focused On Agricultural Innovation**

## WHY GIS-POINT?

**Expertise:** Decades of GIS and agri-tech experience

**Customization:** Tailor-made solutions (remote or in-house teams)

**Scalability:** From single-farm apps to nationwide monitoring systems

**Impact:** Proven results in yield improvement and resource efficiency
