Gennate

30 % OFF for REAP Delegates

Precision & Proven Nano-Nutrients

NanoViva™ ZINC

ADVANCED NANO ZINC MICRONUTRIENT

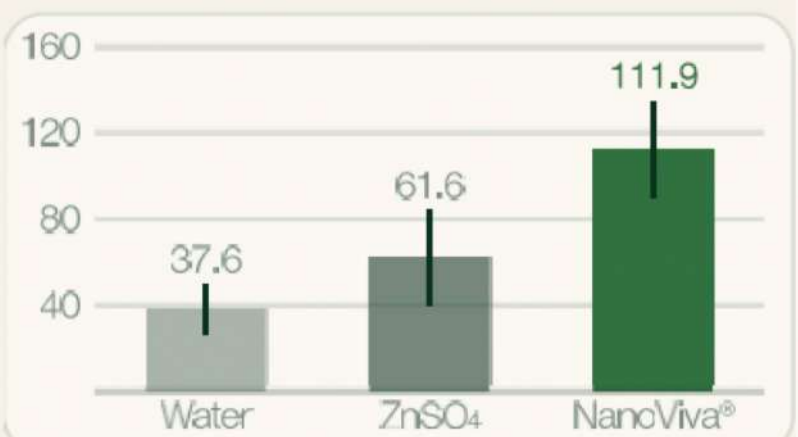

A nano formula of micronutrients for all types of plants

Enhanced Bioavailability

Supports Healthy Plant Growth

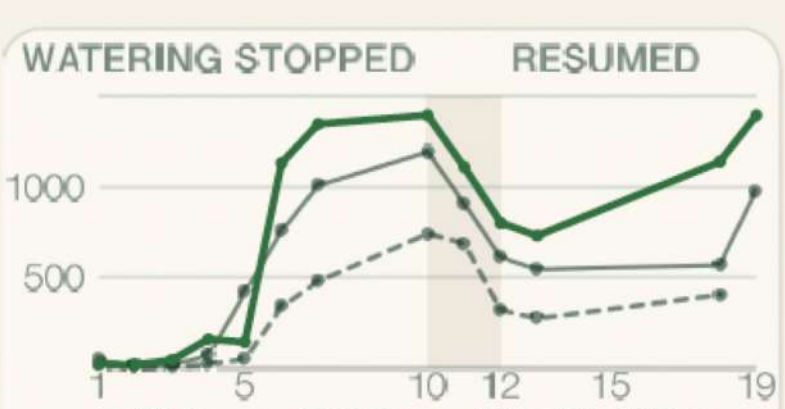

Improves Nutrient Use Efficiency

Increased growth

Three times the water control, 1.8× zinc sulphate.

Drought resistance

42% above zinc sulphate by day 19, 2.8× water by day 18.

Increased germination

Germination 55% to 90% in Gennate's in-house wheat test.

DIRECTIONS FOR USE

SEED PRIMING

Dilute to 50–100 mg/Litre.
Soak seeds for 8–15 hours, then dry and sow.

FOLIAR SPRAY / SOIL APPLICATION

Dilute to 1–5 mg/Litre prior to application.

Let's grow *together.*
